

ULTRA PREMIUM VODKA

100% wheat - 37.5volAlc

SAS ESFIR was created in 2014 in Brest.
The ESFIR brand immediately turned to the middle of the night as well as wine merchants, the brand now has more than 120 distributors In France.

After having made its own proofs in the discotheques and among young people, **ESFIR** now wishes to work constructively with importers & distributors partners all over the world.

ESFIR VODKA is produced by distillation continues in the heart of the Rhodope Mountains, in Bulgaria.
Distilled more than 10 times then imported by bulks of 1000L, it is then bottled in Rennes, **France**.
Almost every steps is man made and double checked before the product arrives to the customers.

Its taste is exceptional and offers consumers a real and rare quality tasting product.
Its unique packaging is recognizable from far.
It's also the **ESFIR VODKA** style, with its yellow dress and its sleek style which in fact are its first media of communication.

*A beautiful vodka, 100% wheat, with a high purity, due to its Balkan Mountains water.
This is a vodka of character as indicated by Esfir, light and subtle as the martlet.
A rising star in the world of vodka.*

Christophe Menozzi - Maître Sommelier de France UDSF
